BUDGET

The Governing Board recognizes its critical responsibility for adopting a sound budget for each fiscal year which is aligned with the district's vision, mission, and Board focus areas. The district budget shall guide administrative decisions and actions throughout the year and shall serve as a tool for monitoring the fiscal health of the district.

The district budget shall show a complete plan and itemized statement of all proposed expenditures and all estimated revenues for the following fiscal year, together with a comparison of revenues and expenditures for the current fiscal year. The budget shall also include the appropriations limit and the total annual appropriations subject to limitation as determined pursuant to Government Code 7900-7914. (Education Code 42122)

The Board shall adopt the budget only after a local control and accountability plan (LCAP) developed pursuant to Education Code 52060-52077 or an annual update to the LCAP is in place for the budget year. Expenditures necessary to implement the LCAP or the annual update during the subsequent fiscal year shall be included in the budget.

The Superintendent or designee shall establish an annual budget development process and calendar in accordance with the single budget adoption process described in Education Code 42127(i).

The Superintendent or designee shall oversee the preparation of a proposed district budget for approval by the Board and shall involve appropriate staff in the development of budget projections.

The Board encourages public input in the budget development process and shall hold public hearings and meetings in accordance with Education Code 42103 and 42127.

The Board shall establish and maintain a general fund reserve for economic uncertainty that meets or exceeds the requirements of law. (Education Code 33128.3; 5 CCR 15450)

INTRADISTRICT SCHOOL CHOICE

The Placentia-Yorba Linda Unified School District Board of Education supports the concept of neighborhood schools and, to that end, has established attendance boundaries which are designed to promote the concept and optimize the efficient use of district facilities and resources. The board recognizes, however, the importance of parental preference and choice in selecting their children's school of attendance. As such, it shall be the policy of the Placentia-Yorba Linda Unified School District to permit parents of students who reside within the boundaries of the district, pursuant to Education Code 48204, to select admission of their student to any appropriate school operated by the district, subject to the following conditions:

1. Admission to a school of choice pursuant to this policy will be dependent upon availability of space. Admission shall not cause the selected school to exceed its established enrollment capacity. In establishing enrollment capacities for purposes of this policy, elements of consideration shall include, but not be limited to, the following: a) staff deployment; b) applicable State law; c) contracts in force; d) physical space available; and e) contingencies for hardship and administrative placements. The term "enrollment capacity," as applied to this policy, shall not be construed to mean the maximum number of students that can legally be housed on a specific school site.
2. Each school must remain in compliance with state or federal laws or board policies that affect the maintenance of ethnic diversity.
3. Students residing within a specified attendance area of a school have first priority to attend that school. Enrollment of students pursuant to this policy shall not cause the displacement of any student currently residing in the attendance area of that school.
4. In implementing this policy, the district shall not be required to do any of the following:
 - a. Make alterations to the structure or grounds of any school or make alterations to the arrangement or function of rooms within any school.
 - b. Establish and/or offer any particular program in a school if such a program is not currently offered at that school.
 - c. Exempt any student from meeting the established entrance requirements of specialized schools or programs.
 - d. Provide transportation assistance.

5. All students who elect to choose a school pursuant to this policy shall be included in a random, unbiased selection process that prohibits any evaluation that would allow enrollment based on academic or athletic performance. Admission decisions determined by the selection process shall be final, without appeal.

Each year, students and parents shall receive timely notification of school choice procedures.
