**BOARD POLICY**Placentia-Yorba Linda Unified School District

**INTRADISTRICT SCHOOL CHOICE**

The Placentia-Yorba Linda Unified School District Board of Education supports the concept of neighborhood schools and, to that end, has established attendance boundaries which are designed to promote the concept and optimize the efficient use of district facilities and resources. The board recognizes, however, the importance of parental preference and choice in selecting their children's school of attendance. As such, it shall be the policy of the Placentia-Yorba Linda Unified School District to permit parents of students who reside within the boundaries of the district, pursuant to Education Code 48204, to select admission of their student to any appropriate school operated by the district, subject to the following conditions:

1. Admission to a school of choice pursuant to this policy will be dependent upon availability of space. Admission shall not cause the selected school to exceed its established enrollment capacity. In establishing enrollment capacities for purposes of this policy, elements of consideration shall include, but not be limited to, the following: a) staff deployment; b) applicable State law; c) contracts in force; d) physical space available; and e) contingencies for hardship and administrative placements. The term "enrollment capacity," as applied to this policy, shall not be construed to mean the maximum number of students that can legally be housed on a specific school site.
2. Each school must remain in compliance with state or federal laws or board policies that affect the maintenance of ethnic diversity.
3. Students residing within a specified attendance area of a school have first priority to attend that school. Enrollment of students pursuant to this policy shall not cause the displacement of any student currently residing in the attendance area of that school.
4. In implementing this policy, the district shall not be required to do any of the following:
  - a. Make alterations to the structure or grounds of any school or make alterations to the arrangement or function of rooms within any school.
  - b. Establish and/or offer any particular program in a school if such a program is not currently offered at that school.
  - c. Exempt any student from meeting the established entrance requirements of specialized schools or programs.
  - d. Provide transportation assistance.
5. All students who elect to choose a school pursuant to this policy shall be included in a random, unbiased selection process that prohibits any evaluation that would allow enrollment based on academic or athletic performance. Admission decisions determined by the selection process shall be final, without appeal.

Each year, students and parents shall receive timely notification of school choice procedures.

Instruction

6145 - BP

**EXTRACURRICULAR AND COCURRICULAR ACTIVITIES**

The Governing Board recognizes that extracurricular and cocurricular activities enrich the educational and social development of students and enhance students' feelings of connectedness with the schools. The district shall encourage and support student participation in extracurricular and cocurricular activities without compromising the integrity and purpose of the educational program.

No extracurricular or cocurricular program or activity shall be provided or conducted separately on the basis of any actual or perceived characteristic listed as a prohibited category of discrimination in state or federal law, nor shall any student's participation in an extracurricular or cocurricular activity be required or refused on those bases. Prerequisites for student participation in extracurricular and cocurricular activities shall be limited to those that have been demonstrated to be essential to the success of the activity.

Any complaint alleging unlawful discrimination in the district's extracurricular or cocurricular programs or activities shall be filed in accordance with BP/AR 1312.3 - Uniform Complaint Procedures.

Unless specifically authorized by law, no fee shall be charged to students for participation in extracurricular and cocurricular activities related to the educational program, including materials or equipment related to the activity.

Staff is directed to provide safe, quality programs for all students and to ensure no student will be restricted from participation due to financial limitations. The participation of students with disabilities is encouraged and will be managed in accordance with state and federal guidelines.

**Eligibility Requirements**

To be eligible to participate in extracurricular and cocurricular activities, students in grades 7-12 must demonstrate satisfactory educational progress in the previous grading period, including, but not limited to:

1. Maintenance of a minimum of 2.0 grade point average on a 4.0 scale in all enrolled classes
2. Maintenance of minimum progress toward meeting high school graduation requirements

The Superintendent or designee may grant ineligible students a probationary period not to exceed one quarter. Students granted probationary eligibility must meet the required standards by the end of the probationary period in order to remain eligible for participation.

Any decision regarding the eligibility of any child in foster care or a child of an active duty\_military family for extracurricular or cocurricular activities shall be made by the Superintendent\_or designee in accordance with Education Code 48850 and 49701.

The Superintendent or designee may revoke a student's eligibility for participation in extracurricular and cocurricular activities when the student's poor citizenship is serious enough to warrant loss of this privilege.

**Student Conduct at Extracurricular/Cocurricular Events**

When attending or participating in extracurricular and cocurricular activities on or off campus, district students are subject to district policies and regulations relating to student conduct. Students who violate district policies and regulations may be subject to discipline including, but not limited to, suspension, expulsion, transfer to alternative programs, or denial of participation in extracurricular or cocurricular activities in accordance with Board policy and administrative regulation. When appropriate, the Superintendent or designee shall notify local law enforcement.

**Annual Policy Review**

The Board shall annually review this policy and implementing regulations.
